**DISTINGUISHED
(45 SESSIONS)**

PROFICIENT (30 SESSIONS)

1 Explore the World

In this introductory session, explore the world and get to know the details about the universe we live in. Exploring our world, or exploring beyond our world creates jobs and technology that make our world better.

2 Must Know History

history gives us the tools to analyze and explain problems in the past, it positions us to see patterns that might otherwise be invisible in the present — thus providing a crucial perspective for understanding (and solving!) current and future problems.

3 Motivating Successors

It includes Nobel Prize & Awards, Father of various fields, World's Richest person, valuable IT Companies and many more.

3-D

4 Let Know the Economy

Understanding how decisions are made, how markets work, how rules affect outcomes, and how economic forces drive social systems will equip people to make better decisions and solve more problems. This translates to success in work and in life.

5 Curious Human Health

The field of public health plays a critical role in the promotion of health, prevention of disease, and empowerment of individuals to manage illness and disabilities.

6 Sports We Love

sport helps children develop character and to learn important social and brain skills such as problem-solving, resilience, perseverance, confidence and teamwork.

7 Technology Updates

Technology provides students with easy-to-access information, accelerated learning, and fun opportunities to practice what they learn. Learn all the latest updates about technology.

8 Miscellaneous

It will cover all the miscellaneous topics related to different fields and as per learner's fields of interests.

DISTINGUISHED (45 SESSIONS)

1 All the Proficient Sessions

This will include all the topics from proficient sessions. This course will cover all the 30 sessions from proficient course and rest of the sessions are continuous.

2 Longest and Highest Facts

This will include all the famous and non-famous facts from around the world including longest and highest facts of unique and most interesting things.

3 Lakes and Rivers

Lakes are an important part of the water cycle; they are where all the water in an area collects. Water filters down through the watershed, which is all the streams and rivers that flow into a specific lake.

4 Inventions

Invention Education helps students identify and create new possibilities for themselves and their world. It builds confidence by creating a new sense of their identity, their abilities, and their future.

5 Discoveries

Discovery learning promotes student exploration and collaboration with teachers and peers to solve problems. Children are also able to direct their own inquiry and be actively involved in the learning process which helps with student motivation.

6 Miscellaneous

It will cover all the miscellaneous topics related to different fields and as per learner's fields of interests.
